## Rome ( Civitavecchia ) Shore Excursions

☐ Stop in Rome (1 hour from Civitavecchia)

Rome The capitol of the Roman Empire to which it owes its name, and the centre of Christendom since the fall of the Empire, Rome is rich in monuments of its ancient history which justify its renown as the Eternal City.

We will be able to see:

- **Colosseo (Colosseum)**... This amphitheatre , inaugurated in AD 80 , is also known as the Flavian Amphitheatre after its initiator , Vespasian, first of the Flavian emperors. Work begun in the early years of Vespasian reign, but had completed by his son Titus and was inaugurated in 80 A.D. with magnificent spectacles lasted 100 days.
- **Palatin Hills** is the centermost of the Seven Hills of Rome and is one of the most ancient parts of the city.
- **Foro Romano (Roman Forum)** The remains of the Roman Forum , the religious, political and commercial centre of ancient Rome , reflect the 12 centuries of history which created Roman civilisation. The forum was excavated in the 19C and 20C.
- **Campidoglio**... On the hill which symbolised the power of ancient Rome, there now stand the city's administrative offices, the church of Santa Maria d'Aracoeli, Piazza del Campidoglio and its palaces , and pleasant gardens.☐  
Piazza del Campidoglio (Capitol Square) was designed and partly laid out by Michelangelo from 1536 onwards. It is framed by three palaces and balustrades with statues of the Heavenly Twins or Dioscuri. In the centre stood the equestrian statue of Marcus Aurelius installed by Michelangelo and now housed in the Capitoline Museums.
- **Vittorio Emanuele Monument**..... ( Wedding Kate!!)
- **Pantheon**... An ancient building perfectly preserved, founded by Agrippa in 27 BC and rebuilt by Hadrian (117-125), was a temple which was converted into a church in the 7C.
- **Trevi Fountain**.. Maybe the most beautiful and most famous fountain in Rome. It's a true masterpiece both of sculpture and architecture. The design of the fountain is highly symbolic. The large niche at the centre of the arch lends balance and symmetry to the whole ensemble.
- **Spanish Steps** ... This square, was so named in the 17C after the Spanish Embassy occupied the Palazzo di Spagna. At the foot of the stairway are the Fontana della Barcaccia, by Bernini's father.
- **\*Vatican Museum and Sistine Chapel.**
